

SuperSixties by NKHTGT

Events Bulletin Nr. 02/2023

dated 06.04.2023

To SuperSixties by NKHTGT Sporting and Technical Regulations 2023
(with KNAF-permit No.: 0326.23.120)

Amendment to the Sporting and Technical regulations SuperSixties by NKHTGT 2023

This bulletin is in force with immediate application

3.2 Driver equipment (Part 2: Technical Regulations)

Subject: Protective clothing during the races 'Preis der Stadt Stuttgart' at the Hockenheimring, April 21st, 22nd and 23rd 2023 and 'Historic Zandvoort Trophy' at Circuit Zandvoort, May 6st and 7th 2023.

Protective clothing

FIA standard 8856-2000 and 8856-2018 are the clothing standards currently valid in motorsport. From **January 1st, 2023**, an 8856-2000 overall is only valid if it is provided with an **FIA hologram**, to be found near the zipper, with the washing instructions.

It now appears that due to availability problems, not every competitor will have a 8856-2000 or 8856-2018 at their disposal in time for the events mentioned above.

Considering this, the use of 8856-2000 overalls without the hologram will, by exception to the applicable rules, be allowed during both events upon passing the technical inspection.

3.5 Safety Equipment (Part 2: Technical Regulations)

Subject: Race seats during the races 'Preis der Stadt Stuttgart' at the Hockenheimring, April 21st, 22nd and 23rd 2023 and 'Historic Zandvoort Trophy' at Circuit Zandvoort, May 6st and 7th 2023.

Seats

An availability and long delivery times problem seems to exist for racing seats as well. For that reason, the use of FIA homologated racing seats with a validity until end 2022 may, by exception of the applicable rules, be allowed in both events upon passing the technical inspection.
